■ THE PROBLEM

**Your agents
call models,
MCP tools and
APIs all day.
Who decided
they could?**

■ CONTROL TOWER

One gateway. A live map. Gates on every path.

- Click an agent to trace everything it reaches
- Require a human before a risky tool call

■ WHAT PARTNERS GET

Free Enterprise.

A real say.

01

Free Enterprise

SSO, SCIM, audit to SIEM, agent identity

02

Direct line

To the person who writes the code

03

Roadmap

Your agent estate drives what's next

04

Setup help

Agents, MCP servers and first gates, together

Who it's for: teams with agents calling models and MCP tools for real.
