

■ CONTROL TOWER

5 things your AI agents are doing **right now** that nobody approved

And how to see them.

Swipe →

Control Tower

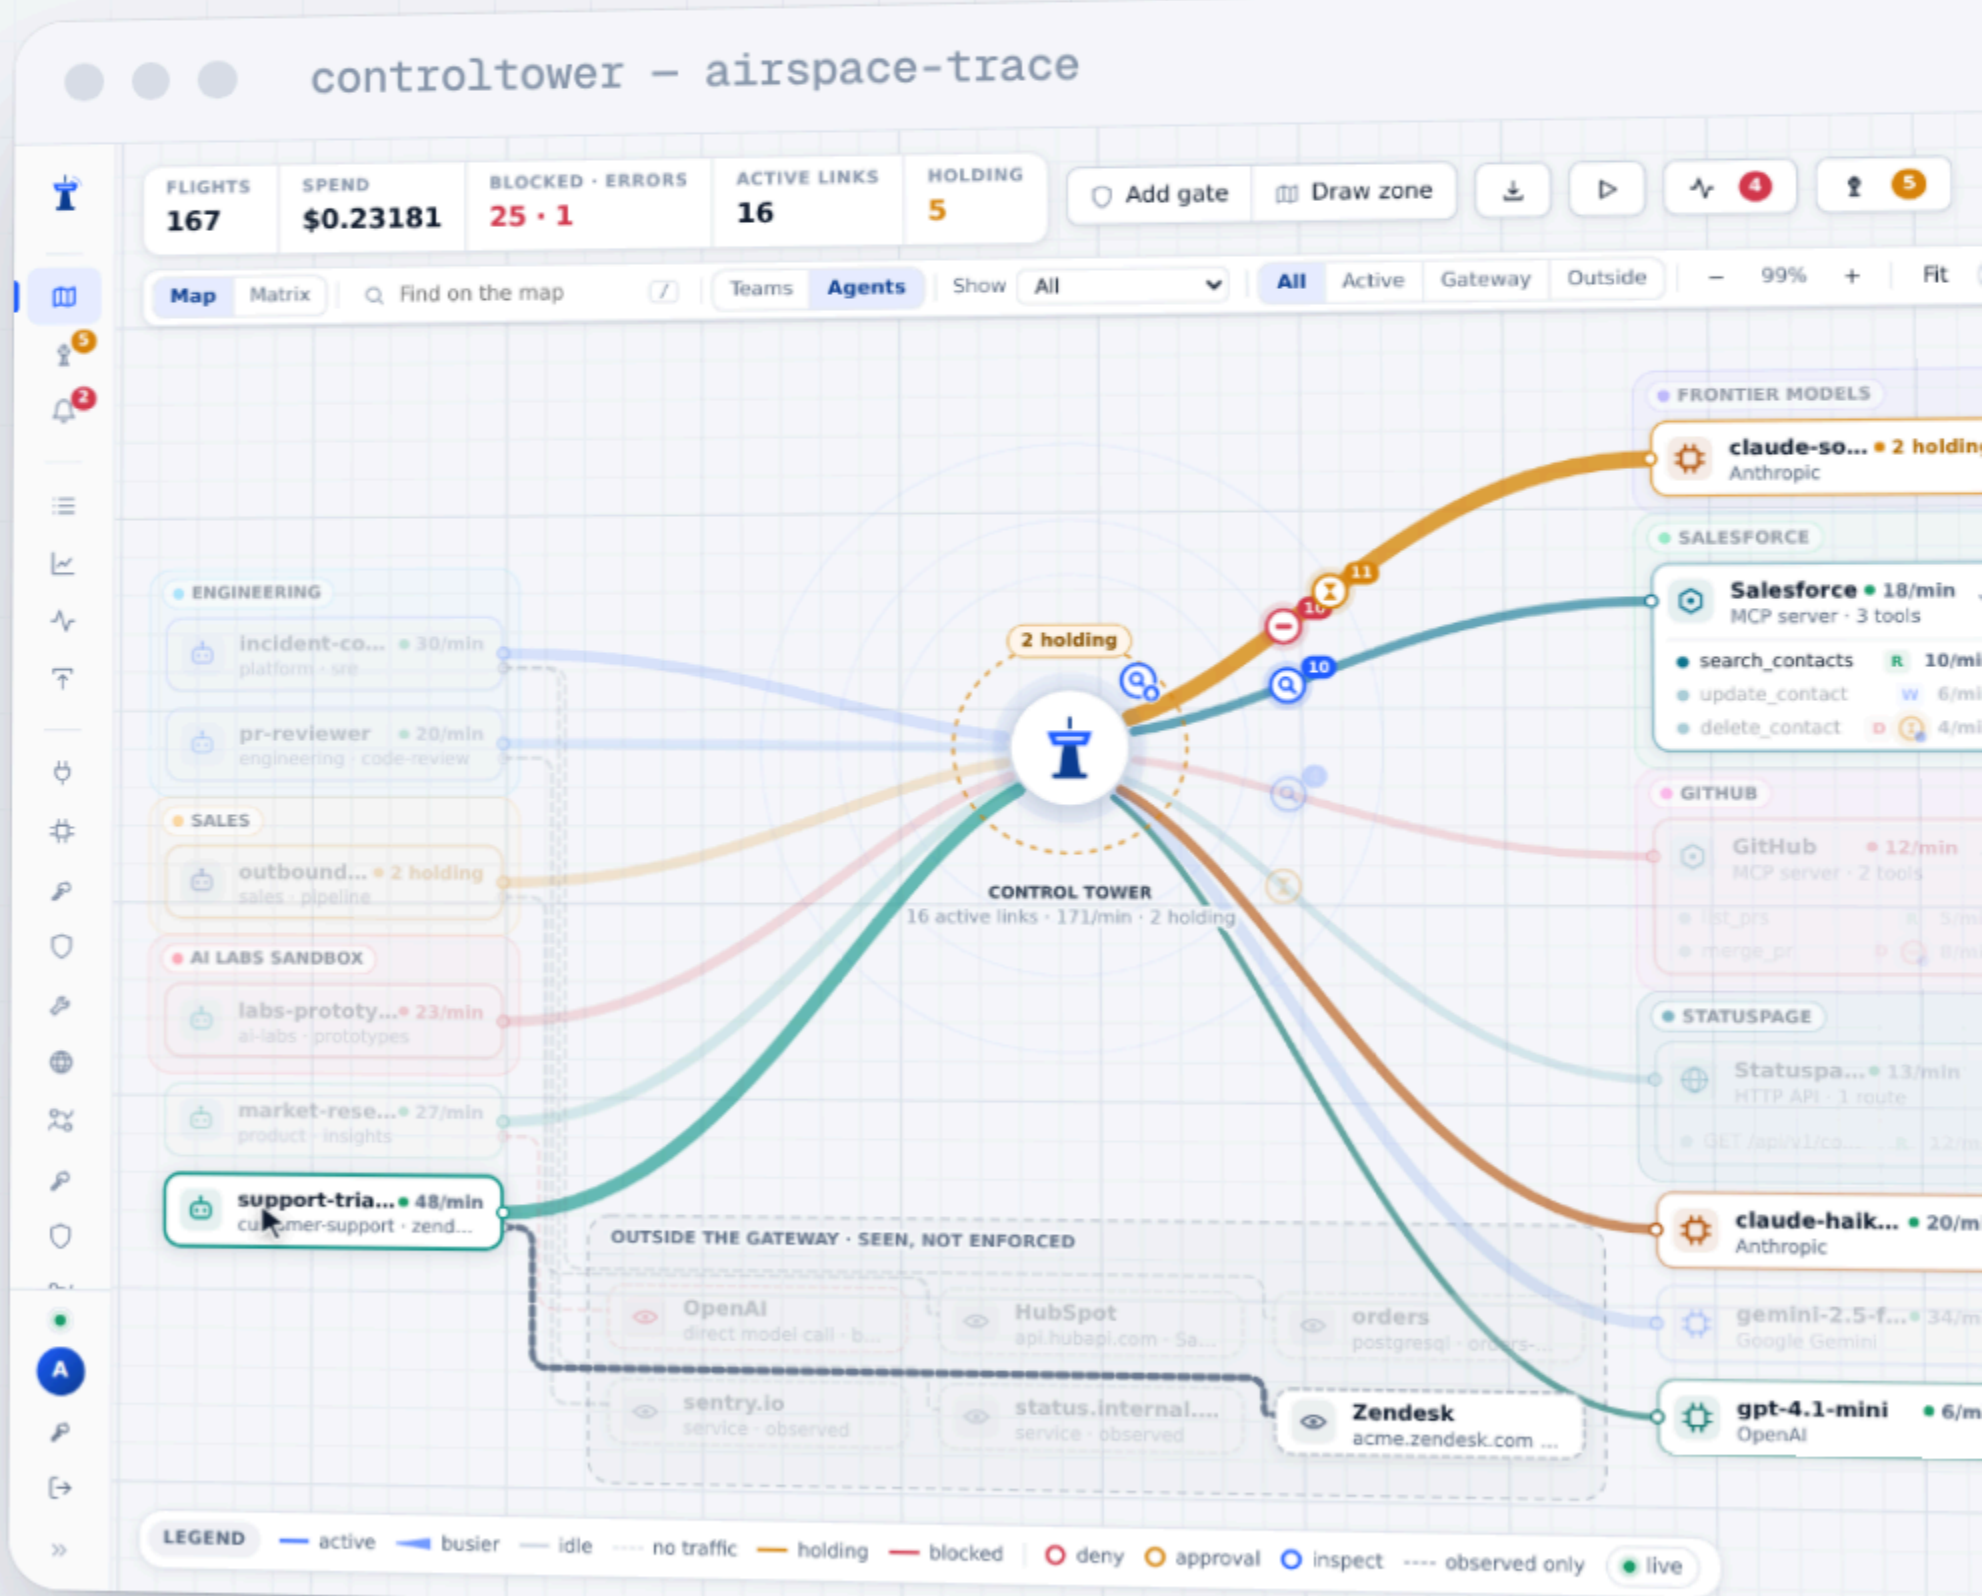

agentcontroltower.app

Your support agent can read every Salesforce contact. Did anyone decide that?

■ TRACE IT

Click an agent. See everything it touches.

Control Tower

★ [joshmaster2165/controltower](https://github.com/joshmaster2165/controltower)

■ TRY IT

Up in **one command**

```
$ docker run -p 4000:4000 \  
ghcr.io/joshmaster2165/controltower  
# open the printed link, start the demo fleet
```

Control Tower

★ `ghcr.io/joshmaster2165/controltower`

Star it. Fork it. Ship safer agents.

Open source, self-hosted, Apache-2.0.
